

The 8th International Conference on Power, Energy and Mechatronics Engineering

Join us in Osaka for the 8th International Conference on Power, Energy and Mechatronics Engineering (ICPEME 2026) during February 6-8, 2026, the preeminent academic Conference in the field of Power, Energy and Mechatronics Engineering.

It dealing with new developments in theory, analytical and numerical simulation and modeling, experimentation, demonstration, advanced deployment and case studies, results of laboratory or field operational tests. Plan now to be part of this exceptional conference, as an attendee, event sponsor, or exhibitor. ICPEME 2026 is where you will meet and network with energy leaders, business innovators, researchers, academics and policy makers from across the globe.

Conference Proceedings

Accepted papers will be published into Springer conference proceedings (LNEE), which will be indexed by EI Compendex, SCOPUS etc.

Call for Papers

Topics of interest include, but not limited to the following

Power and Electrical Engineering

- Power Quality
- Power Converters
- Power Electronics
- Power System Analysis
- Electric Lines and Equipment
- Wireless Power Transfer Systems
- Electrical and Electronic Technology
- Electrical Engineering and Automation
- Microelectronic Technology and Design
- Fault Diagnosis and Condition Monitoring

Energy Engineering

- Demand-side Management
- Industrial Energy Management
- Energy-efficient Lighting Technologies
- Energy Conservation in Transportation
- Energy-efficient Buildings and Systems
- Data Analytics for Energy Management
- Cybersecurity in Smart Energy Systems
- Blockchain Applications in Energy Trading
- Energy Consumption Modeling and Analysis
- Renewable Sources of Energy-energy Savings
- Internet of Things (IoT) Applications in Energy Systems

Mechatronics and Control Technology

- Motor and Electrical Equipment
- High-efficiency Motors and Drives
- Control Technologies in Mechatronics
- Adaptive Control and AI in Mechatronics
- Modern Automatic Production Equipment
- Electric Machines Design and Optimization
- Advanced Control Strategies for Electrical Machines
- Fault Detection and Diagnosis in Mechatronics Systems
- CNC Machine Tool and Fault Diagnosis and Maintenance
- Network and Communication Technologies in Mechatronics

Organizing Committee

CONFERENCE CHAIRS

Hatem Zeineldin, Khalifa University, UAE
Hongzhong Ma, Hohai University, China

PROGRAM CHAIRS

Jian Li, University of Electronic Science and Technology of China, China
Frank Gunzer, German University in Cairo, Egypt
Kei Eguchi, Fukuoka Institute of Technology, Japan
Changzheng Shao, Chongqing University, China
Chuan He, Sichuan University, China
Somporn Sirisumrannukul, King Mongkut's University of Technology North Bangkok, Thailand

PUBLICITY CHAIRS

Zafar Said, UAE University, UAE
Xiaokang Liu, Sichuan University, China
Gheorghe Grigoras, Technical University of Iasi, Romania
Hameed Sulaiman, Sultan Qaboos University, Oman
Wenliang Yin, Shandong University of Technology, China
Malinee Sriariyanun, King Mongkut's University of Technology North Bangkok, Thailand

Submission Guideline

Submission Type

Full Paper (Presentation and Publication)
Abstract (Presentation only)

Submission Method

<https://www.zmeeting.org/submission/icpeme2026>

Call for Special Sessions

ICPEME 2026 encourages proposals for Special Sessions dedicated to emerging and interdisciplinary topics. Special Sessions provide focused forums for discussing new challenges and trends, and are an excellent opportunity for researchers to build networks around specific themes.

Prospective organizers are invited to submit proposals including:

- Title of the session
- Scope and motivation
- Potential contributors

Contact Us

Conference Secretariat: Ms. Hedy Huang

Conference Website: www.icpeme.com

Mail Address: icpeme@scie.org

Important Dates

Submission Deadline	November 5, 2025
Notification Deadline	December 5, 2025
Registration Deadline	December 25, 2025
